TRAILERS.COM ANNOUNCES PLATFORM TO HELP TRAILER DEALERS

EDEN, NC (November 11, 2013) – Trailers.com announced today its plans to open a premier trailer listing platform available to trailer dealers and trailer owners across the United States and Canada.

Trailers.com, a subsidiary of Etomic Companies Inc., has developed a custom platform tailored specifically for the trailer industry, including over seven patent-pending technologies that will assist in increasing trailer sales for new and used trailers for sale.

“I am very proud to announce our plans to release this amazing technology to the trailer industry. Over the years, as a dealer for many products, I have developed internal tools and tricks that assist in increasing sales”, says Jeremiah Johnson, owner of Trailers.com. For a very low monthly cost, a trailer dealer will have access to the tools and features that have powered over 100 million in sales for our stores.

Trailer dealers are encouraged to reserve an account, at no cost, by visiting Trailers.com. In addition, Trailers.com will offer low cost technology services to the trailer industry such as unlimited website hosting and email for less than \$4 per month.

Johnson states, “Our goal is to assist trailer dealers and manufacturers with marketing tools that will help get their business in front of more viewers. I invite dealers and manufactures of all sizes to give us a call to discuss how we can assist them.”

To reserve an account, at no cost, visit <http://trailers.com/advertise>.

About Etomic Companies Inc.

Etomic is an Internet development company with a primary interest in developing name-brand top-level websites. Etomic is responsible for founding other popular websites, including Barns.com, Carports.com, and others. Stores developed by Etomic have generated over one hundred million in online sales.
